PROFESSIONAL SUMMARY

FullStack Developer specializing in Java, Spring Boot, React.js, and AWS with proven experience at Amazon optimizing backend systems and database performance. Competitive programming background with 800+ problems solved and consistent top 5% ranking on LeetCode. Focused on building scalable, reliable systems and efficient APIs.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, HTML5, CSS3

Backend: Basic knowledge of server-side programming (Node.js / Java)

Frontend: React.js, Bootstrap, Tailwind CSS

Database: MySQL, PostgreSQL, MongoDB

PROFESSIONAL EXPERIENCE

Frontend Developer Intern | LeapX

Mar 2026

Bangalore, India

- Worked on frontend development tasks assigned by mentors, focusing on building and improving user interface components.
- Developed responsive web pages using HTML, CSS, and JavaScript, ensuring compatibility across different devices and screen sizes.
- Collaborated with team members to implement basic features and fix UI issues, improving overall user experience.
- Gained practical exposure to real-world development workflow, version control, and task-based project execution.

PROJECTS

TripToDhaba – Food Discovery Platform | [GitHub](#)

Dec 2025 - Feb 2026

HTML, CSS, JavaScript, Google Maps API

Web platform that helps users discover nearby dhabas and local eateries in real-time, improving accessibility to regional food options.

- Built location-based search system using Google Maps API, enabling users to explore 30+ dhabas with accurate navigation and filtering features. Designed and developed responsive user interface using HTML, CSS, and JavaScript, enhancing user experience and engagement.
- Implemented dynamic data handling and interactive features to improve search efficiency and usability.

WealthHome – Real Estate Web Platform | [GitHub](#)

Feb 2026 - May 2026

HTML, CSS, JavaScript, Google Maps API

Web-based real estate platform that allows users to search, explore, and browse properties for buying, selling, and renting.

- Designed and developed responsive UI with modern layout, enabling users to filter properties based on type, location, and preferences. Implemented interactive search functionality and dynamic components to enhance user experience and usability.
- Optimized frontend performance and layout structure, ensuring smooth navigation and improved user engagement.

CERTIFICATIONS & ACHIEVEMENTS

- IBM – Complete JavaScript Course** | Gained strong fundamentals of JavaScript including DOM manipulation, functions, and event handling
- IIT Bombay – Web Development Certificate** | Learned core web technologies including HTML, CSS, and JavaScript with hands-on project experience
- Be10x – Multiple AI Tools Masterclass** | Learned core web technologies including HTML, CSS, and JavaScript with hands-on project experience
- ACHIEVEMENTS** • Participated in E-Cell Innovation Hall Event, showcasing problem-solving and teamwork skills (PW IOI, Oct 2025)

EDUCATION

B.Tech in Computer Science

2025-2029

PW Institute Of Innovation | CGPA: 8.7/10.0

Final Year Project: CareerPath AI - Building an AI-powered career development platform focused on resume analysis and personalized skill recommendations.
